EXPERIENCE

FREELANCE WEB DEVELOPMENT | SOFTWARE DEVELOPER

February 2022 – Current | Las Vegas, Nevada

- Work directly with small business owners to provide CMS development and front-end web development for various projects including landing pages, blogs, and newsletters.
- Utilizing conversion based web design and SEO best practices to increase consumer retention rates.
- Learning new technologies such as tailwind, bootstrap and handlebars.js to find efficient and scalable solutions for CMS theme templates.
- Meeting face to face with clients to establish the scope of each project including feature implementation, budgets, and project timing.

SOFTWARE PROJEX | WORDPRESS DEVELOPER

May 2021 – Current | Las Vegas, Nevada

- Develop conversion first solutions that improve user experience and increase consumer retention rates.
- Working on the technical support help desk and resolving dozens of support tickets regarding user experience issues.
- Modernized learning management system to improve user experience and integration with sites native plugins.

WOLFGANG PUCK CATERING | CATERING SERVER

May 2018 – December 2019 | Redmond, Washington

- Created a welcoming environment by greeting and addressing guests' needs.
- Fulfilling the requests of guests in a business professional setting serving food and beverage as needed.

PROJECTS

BRAINWAVE | CREATOR

2022

- Built a front end web app to allow users to create their own account and learn several concepts from courses.
- Utilized fundamental React concepts like Router V6 and React Hooks.
- Designed in Figma and built with React.js, TailwindCSS and Firebase.

DEAR CMS BLOG | CREATOR

2022

- Built a full stack web app to allow users to read and comment on blog posts.
- Utilized GraphCMS to store GraphQL content and then wrote queries to fetch the content for blog posts.
- Used Next.js, TailwindCSS, and GraphQL.
